MANAGEMENTS DISCUSSION AND ANALYSIS REPORT

As stipulated under Regg.34€ read with Schedule V, Part B of SEBI(LODR)2015, for the year under review The Management is exploring new opportunities of Business in USA markets. Due to Covid 19 pandemic the markets are facing slowdown in their operations and accordingly the economy is in down trend. However the Management is confident and expects a turnaround from this year end and the coming year will be looking promising.

World Economy

The global economy has been going through a slowdown over the past few years. As per the World Economic Outlook released by IMF in January 2020, the Global growth is projected to rise from an estimated 2.9 percent in 2019 to 3.3 percent in 2020 and 3.4 percent for 2021—a downward revision of 0.1 percentage point for 2019 and 2020 and 0.2 for 2021. However, the latest reports amidst the pandemic (COVID-19) crisis suggest that the world economy might see a downward trend for 2020 compared to previous years.

Indian Economy

The UN 'Economic and Social Survey of Asia and the Pacific (ESCAP) 2020: Towards sustainable economies' said that COVID-19 is having far-reaching economic and social consequences for India, with strong cross border spillover effects through trade, tourism and financial linkages. According to the latest IMF report, India would see a huge dip in terms of GDP growth for 2020 but will bounce back in 2021. Indian GDP growth is expected to fall to 1.9% in 2020 from 4.2 in 2019.

Indian IT-BPM Sector

The National Association of Software and Services Companies (NASSCOM) in its TECHADE 2020 report, mentioned that the IT-BPM sector's revenue grew 7.7% year-on-year to \$191 bn in FY2020 compared to \$177 bn in FY19. The exports grew by 8.1% to \$147 bn. The digital revenue share is between 26-28% for FY20. Post COVID, several analysts have cautioned that there will be a decrease in the IT spend by enterprises. However, there are few industries such as Healthcare, Education, Communications, and others that are seeing a positive impact, which may continue in the long term as well.

Security is critical

Security of systems has become the top priority for organizations as they try to identify and mitigate their vulnerabilities that may crop up with the requirement to work from home.

Focus on User Experience (UX)

User interface is the face of an application, which should be presentable, appealing, aesthetic, and intuitive. Moving everything to digital will result in more UX testing opportunities.

Emerging post COVID

The change in the consumer behaviour combined with elimination of human to human touch will lead to evolution of new. After this crisis, the need for unprecedented coordination, planning, and execution adeptness from governments, corporates and citizens to manoeuvre technology will emerge as the fundamental bedrock in orienting the outcomes towards greater good at lesser cost. Retail, banking, finance, education, healthcare, virtual meetings - the world is going to witness more and more online transactions. Enterprises will not be left with choice anymore and have to digitalize everything internal and external. This leads to assurance of online and secured transactions.

Industries that see the light

The future is uncertain for every organization of the world. No one knows for sure when everything will get back to normal, and whether this normal will be anything like the normal that we know. Whatever the next

normal be, we at **Response Informatics Ltd** are working on developing & fortifying our future-forward capabilities to support industries through and after the crisis. Gartner predicts that all the industries will be materially impacted directly or indirectly due to the impact of COVID-19 in regular operations. Many organizations will face a slowdown, but some industries will have a positive overall impact on technology investments compared to others. Banking & Securities, Insurance, Manufacturing, Retail, & Transportation industries have been the most affected by the Coronavirus outbreak, and uncertainty looms over the long-term impact on all of them. The Communications, Education, Public Sector, and Healthcare industries are seeing a positive impact, which may continue in the long term as well.

Opportunities and Threats

Though there may be a slumping business for 2 quarters, but more and more enterprises will focus on accelerating the digital transformation journey, so we see lot of opportunities. The pandemic is not slowing down, and enterprises have tightened their wallets. However, the change in consumer behaviour due to COVID has resulted in new channels and. While enterprises will cut down the costs, there will be an equal pressure on their IT teams to deliver the seamless experience to its customers, thus leading to more offshore shift.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we

conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements section of our report to the Members of Response Informatics Limited of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **RESPONSE INFORMATICS LIMITED** ("the Company") as of March 31, 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial

reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1. Significant Accounting Policies & Notes annexed to and forming part of the financial Statements

1.1. Basis for preparation of financial statements:

a) Compliance with Indian Accounting Standards (Ind As)

The financial statements have been prepared in accordance with Indian Accounting Standards (Ind As) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under section 133 of the Companies Act, 2013.

b) Use of estimates and judgement

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

1.2. Property, Plant and Equipment & Depreciation

Items of Property, Plant and Equipment are stated at cost less accumulated depreciation.

Cost of an item of property, plant and equipment comprises its purchase price, excluding import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials and direct labour, any other costs directly attributable to bringing the item to working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less cost of disposal and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units).

Depreciation on the fixed assets has been provided based on useful lives as prescribed under part C of the schedule II of the companies act, 2013.

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (up to) the date on which asset is ready for use (disposed of).

1.3 Impairment of non-financial assets

The Company's non-financial assets, other than deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of profit and loss. Impairment loss recognised in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets of the CGU (or group of CGUs) on a pro rata basis.

1.4 Intangible assets

Intangible assets are amortized over the estimated useful lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method are reviewed at least at each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and are treated as change in accounting estimates. The amortization expense on intangible assets with finite useful lives is recognized in profit or loss.

1.5 Inventory

Cost of inventories have been computed to include all costs of purchases (including materials), cost of conversion and other costs incurred, as the case may be, in bringing the inventories to their present location and condition.

Stores and consumables are valued at cost arrived at on FIFO basis or net realisable value, whichever is lower

1.6 Foreign currencies transactions and translations

Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date.

The gain or loss on decrease/increase in reporting currency due to fluctuations in foreign exchange rates, in case of monetary current assets and liabilities in foreign currency, are recognised in the Statement of Profit and Loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are recorded using the exchange rates at the date of the transaction.

1.7 Provisions

A provision is recognised when the Company has a present legal or constructive obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. Provisions (other than employee benefits) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

1.8 Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable.

Interest Income

Interest income from a financial asset is recognised using effective interest rate method. However, in respect of certain financial assets where it is not probable that the economic benefits associated with the transaction will flow to the entity and amount of revenue cannot be measured reliably, in such cases interest income is not recognised.

1.9 Dividend Income

Dividends will be recognised when the company's right to receive has been established

1.10 Employee benefits

1.10.1 Short term employee benefits

The employer makes contribution to the scheme at a predetermined rate (presently 4.75%) of employee's gross salary. The Company has no further obligations under the plan beyond its monthly contributions. These contributions are made to the fund administered and managed by the Government of India. Monthly contributions are charges to income in the year it is incurred.

1.11 Tax Expenses

The tax expense for the period comprises current and deferred tax. Tax is recognised in Statement of Profit and Loss, except to the extent that it relates to items recognised in the comprehensive income or in equity. In which case, the tax is also recognised in other comprehensive income or equity.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are off set only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax is also recognised in respect of carried forward tax losses and tax credits.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The carrying amount of deferred tax liabilities and assets are reviewed at the end of each reporting period.

1.12 Leases

Leases are classified as finance lease whenever the terms of the lease, transfers substantially all the risks and rewards of ownership to the lessee. Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are charged to the Statement of Profit and Loss on a straight line basis over the period of the lease.

1.13 Borrowing costs

Borrowing costs incurred for obtaining assets which takes substantial period to get ready for their intended use are capitalized to the respective assets wherever the costs are directly attributable to such assets and in other cases by applying weighted average cost of borrowings to the expenditure on such assets. Other borrowing costs are treated as expense for the year.

Transaction costs in respect of long-term borrowings are amortized over the tenor of respective loans using effective interest method.

1.14 Earnings per equity share

(i) Basic earnings per share

Basic earnings per share are calculated by dividing:

- The profit attributable to owner of the company.
- By the weighted number of equity shares outstanding during the financial year

(ii) Diluted earnings per share

1.15 Financial Instruments

i. Financial assets

A. Initial recognition and measurement

All financial assets and liabilities are initially recognized at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are adjusted to the fair value on initial recognition.
